**We are thrilled to announce that on December 6, 2008, we celebrated the 23rd anniversary of the founding of Alpha Aviation Co., Ltd as well as our 23rd accident-free year.**

Thank you for your continuing encouragement and support over the years.

## ■Twenty-three accident-free years

Our perfect safety record since the founding of Alpha Aviation is the result of our tireless efforts for improvement and safety. We will continue to strive to maintain our accident-free status.

## ■Our goal

One of our main goals is to graduate high-quality pilots that aviation companies and others in the field of aviation require for the day-to-day operation of their enterprises.

## ■About us

President Shizuka Saito established Alpha Aviation in 1985. We are a CAB-licensed aviation company and provide pilot training at our four operation centers in Japan (See Figure.1). We have kept top level market share in the Japanese flight training business for more than eight years, since 1999.
